

6. ASHRAE received an invitation to send a representative to a United Nations Environmental Programme (UNEP) workshop on Sustainable Development that was held in Paris on October 4-5. President Coad appointed Mr. Denis Clodic, an ASHRAE member who lives in Paris, to represent ASHRAE. Based on Mr. Clodic's report that a second draft of a report on Sustainable Development would be circulated, Mr. Coad will ask Kent Anderson to review the draft and recommend what action would be appropriate for ASHRAE.
7. Mr. Joe Buck, as one of the organizers of the two Think Tanks that have been held with DSA and ESA recipients, has sent to these individuals a letter giving the status of the suggestions they offered during the Think Tanks.
8. President Coad has appointed a Presidential Ad Hoc Committee to develop a draft "roadmap" to direct the Society in developing programs for the ASHRAE website. The committee will report to ExCom at the next meeting.
